We are pleased to offer the following potatoes for sale this year. This year has seen most companies move all bags to 2.5kg size. Some prices have inevitably gone up but a few have gone down! Most notable this year we have been able to supply some old favourites such as Accent and Ratte that had been lost for a few years.

If you would like us to reserve you potatoes for collection in January please complete the order form and return it to us. Orders are accepted subject to availability which occasionally can be a problem with some varieties. All orders accepted on a first come first served basis.
